

## Description

Field	Type	Null	Key	Default	Notes
name	varchar(50)	Name of the country - the primary key.			
continent	varchar(60)	Not strictly continent			
area	decimal(10,0)	YES		null	
population	decimal(11,0)	YES		null	
gdp	decimal(14,0)	YES		null	
capital	varchar(60)	YES		null	
tld	varchar(5)	YES		null	
flag	varchar(255)	YES		null	

### 1

Select the code which gives the name of countries beginning with U

```
SELECT name
FROM world
WHERE name LIKE 'U%'
```

### 2

Select the code which shows just the population of United Kingdom?

```
SELECT population
FROM world
WHERE name = 'United Kingdom'
```

### 3

Select the answer which shows the problem with this SQL code - the intended result should be the continent of France:

```
SELECT continent
FROM world
WHERE 'name' = 'France'
```

'name' should be name

### 4

Select the result that would be obtained from the following code

```
SELECT name, population / 10
FROM world
WHERE population < 10000
```

Nauru	990
-------	-----

### 5

Select the code which would reveal the name and population of countries in Europe and Asia

```
SELECT name, population
  FROM world
 WHERE continent IN ('Europe', 'Asia')
```

## 6

Select the code which would give two rows

```
SELECT name FROM world
 WHERE name IN ('Cuba', 'Togo')
```

## 7

Select the result that would be obtained from this code

```
SELECT name FROM world
 WHERE continent = 'South America'
 AND population > 40000000
```

Brazil
Colombia
